

THIRD ACCIDENT ON C.P.R. IN THREE DAYS

Train Leaves Track Two Miles West of White River—Five Cars Cut Off by Moving Picture—One Killed—Accident Caused by Broken Rail.

Fort William, March 26.—Railway men believe absolutely that accident came in cycles of three and there is considerable foundation for such belief. Since Friday night, the latest of which occurred on No. 21 east bound about 1 a.m. on Sunday near Trudeau, ten miles west of White River. As usual, the C.P.R. officials maintain a sphinx-like attitude.

All that is known here is that five cars, a sleeper, diner, freon, tourist and coal-burner went over the tank. Four of the cars lie on their side while the sleeper is on its end. Strange to say, as far as is known here, none were killed. The injured are a man named Barker, miner, and an unknown Chinaman. A doctor from Chaplawa was in attendance. The accident is believed to have been caused by a broken rail.

The other accidents were at Schreiber, where three men were killed and three injured, now in Port Arthur hospital doing well. Eight cars of sections were burned. The other accident was at Mississauga, where one person was killed and many cars of effects damaged.

The Schreiber Accident.—Schreiber, Ontario, March 26.—Those injured and dead in the C.P.R. wreck on Saturday morning were: Kelly, engineer of west-bound, and hand out off; Allen, brakeman on west-bound, hurt badly but not seriously; Kimball, brakeman on east-bound, killed, fractured skull and badly mangled; Burgess, freon on east-bound, cremated on the dip pan of the engine; Pullen, engineer on the east-bound, badly injured, in hospital at Port Arthur, has good chance of recovery; MacCarthy, brakeman on the west-bound, in hospital suffering from fractured skull, reported chance good; Porter, tutor, body not found, cremated.

The Inquest was held today. The coroner's jury rendered a verdict that Kimball and Burgess met their death by collision, due to the west-bound train running past orders at this Jay siding five miles east of here. Allen and MacCarthy were exonerated. Coroner Hines of Port Arthur, presided. A joint funeral service was held at the Mechanics' Institute hall and both the bodies were sent east to their homes.

Fort William, March 26.—Conductor Campbell of the west-bound train is missing. He is not believed to have been killed, but it is generally thought that he has fled, fearing that the investigators will place the blame for the wreck on the crew of the west-bound train.

FIRE IN OPERA HOUSE. Moving Picture Exhibition Broken Up By Blast.

Virdee, Man., March 26.—Fire broke out in the Virdee Opera House this afternoon at three o'clock, when a moving picture, entertaining the audience, was going on. The fire started in the balcony and spread to the main floor, causing a panic. The fire was extinguished by the time it had reached the main floor.

Charged With Robbing T.B. Brandon, March 26.—Percy Thompson, arrested in Winnipeg on Saturday, will be brought back by Detective Mitchell to face a charge of robbing a bill of the drug store where he was employed.

STRATHCONA NEWS

LOCALS.

J. W. Turner, superintendent of the waterworks, met with a painful accident on Saturday. He was driving on Water avenue when his horse, which was frightened by a dog, reared and threw him. He was thrown from the horse and landed on his head. He is now in hospital, suffering from a fractured skull.

The young men's meeting yesterday afternoon in the club room over J. Burns and Co.'s store was well attended. All the addresses were given by J. C. Chubb, superintendent of the city, and J. C. Chubb, superintendent of the city.

The much-talked-of "Explosion Risk" will be held tonight in Knox church, and a good time is expected. An excellent orchestra will be provided, and the program will include a variety of songs, dances, and other amusements. The proceeds will be for the benefit of the Strathcona Baptist church.

The young men's club at Strathcona has decided to engage a permanent secretary, and a proposal was made to the Strathcona Baptist church to take over the club. A fairly good salary is being offered for the position.

The liquor license cases against a number of Strathcona hotels came on Saturday night before Inspector Worsfold in the R. W. R. court at Edmonton, and were adjourned for a week. Arrangements are being made for the holding of a hockey match in the city of Strathcona on Wednesday, April 1st, when a good program will be given previous to the beginning of the season. Two prizes will be awarded for the first and second prizes for the adults and for the first prize for the juveniles. It will cost in the vicinity of \$1000.

U.S. STOCK MARKET DULLEST SINCE 1904

Reorganization of Mexican Cabinet and Scope of New Congress are Causes of Uncertainty—Improvement Increasing That Country is Now Undergoing Slow But Certain Mercantile Legislation.

New York, March 26 (Financial Review).—To find a parallel for the extreme dullness of the stock market last week, it is necessary to go back to March of 1904, when speculation was reduced to a minimum while the market was awaiting the decision in the Northern Securities case. Since since that time had trading fallen to a daily average in the neighborhood of 200,000 shares.

Various facts and figures at hand confirm the fact increasing impression that the country is now undergoing slow but certain mercantile legislation. This is apparent in all sections except the south, where business in many lines is showing a decided improvement from the important industrial centers, especially in regard to textiles, denoting the reaction caused by large jobbers and distributors, while the last fortnight witnessed a falling off in steel and iron.

Decline in Bank Clearings.—Our volume of the movement in all branches of trade is found in the steady decline in bank clearings throughout almost the entire country. There was a momentary check of animation in the securities market on Monday when it became known that the Supreme Court had adjourned for the two weeks without handing down the decisions in the anti-trust cases. It was thought that advantage would be taken of the brief respite from the influence of this uncertainty to undertake a speculative movement.

Uncertainty Over New Congress.—The argument was disputed the following day when not the slightest response came from outside circles to the tentative efforts of the board room elements to inaugurate such a movement. Opinion is quite common in the financial district that steps intended to anticipate the Supreme Court's decision in the stock market at least have been completed. For this reason, other causes for the lethargy of speculation are sought, and some traditional conditions develop in such speculation with the approach of a period of money settlement. Banking positions remain strong, and some indications that no symptoms of money market strain are found. It is rather the sense of trade reinforcement that may help to account for the halt in stock market speculation.

The reorganization of the cabinet in Mexico, and the scope of the new Congress, which is now in session, are also factors in the uncertainty over the country's future.

DYNAMITED A PARSONAGE. Full Stick of the Explosive Set Off Before the House.

Dickinson, N.D., March 26.—An attempt was made to blow up the parsonage of the First Congregational church with dynamite this morning. Miss Ann Taylor, aged sixty-five, having a miraculous escape. A full stick of dynamite was set off between the street and the inside windows of a sleeping room.

To See Canadian Grain Handled. Winnipeg, March 27.—(Financial Review).—Commissioner of the government railways for South Africa, is here consulting railway and grain officials regarding the manner in which Western Canada grain is handled with the view to adopting a similar system.

WANT CANADA TO DEFER RECIPROCITY

British Journal Suggests That Reciprocity Should Be Deferred Until After the Arbitration Proposal Have Been Considered.

Canadian Associated Press. London, March 26.—A special article in the Sunday Times dealing with the peace movement, says that one particularly weak and foolish suggestion with the peace movement, says that we are told to postpone the United States and must see nothing at all against reciprocity, but on the contrary must persuade Canada that reciprocity is good, because it gives the way to the peace movement.

It is said that the United States will not take any action against reciprocity until after the arbitration proposal have been considered.

As an Empire we can make a mistake, but as England, we can offer nothing, therefore we are offering nothing in the matter of the United States to part of the Empire is secured before we negotiate. It is this point of view were put to Sir Walter Lawrence, it might help him out of an awkward position, and he might be asked to help in the larger question of alliance between the Empire and the United States. It might be suggested to him that he was reciprocity until the situation is carried through and the when thing might be done. It is really a too thing and should be looked at from a high point of view.

ARCTIC TRIP IS FULFILLED. Earl Grey Will Not go There the MacKenzie Next Summer. Ottawa, March 27.—(Financial Review).—The Arctic trip which has been definitely abandoned because it would not be accomplished before the time had run for its arrival in the hands of the Government. The trip was planned to take place in the summer of 1911.

WAS HON. W.S. FIELDING HELD UP ON STREET

Report Goes Round in Ottawa That Hon. Minister Was Held Up and His Pockets Reached For Papers Relating to Reciprocity Negotiations.

Ottawa, March 26.—Considerable excitement has been caused in the capital by the following paragraph, which appeared in the Ottawa Evening Free Press: "A strange rumor was going round the corridors of the House of Commons last night to the effect that Mr. Fielding had been held up on a street in Ottawa, and his pockets were searched for papers relating to reciprocity negotiations."

Report Not Confirmed.—The report could not be confirmed until it received a certain amount of corroboration in the fact that since there has been in the public gallery at Ottawa has for the last five days, a plain clothes man of the Dominion police, whose duty it has been, and it is to be seen that Mr. Fielding goes home in a motor car, and his pockets are searched for papers relating to reciprocity negotiations.

However, that Mr. Fielding has received threatening letters from parties who had money in the Farming bank, and that he is being guarded by secret service men in plain clothes.

6 Old Ontario Life Stock. Liverpool, March 27.—(Financial Review).—The Ontario Life Stock, which was a decided success of the first round, is now being sold in the market.

PEEL IN FRONT OF CAR. Dr. Stewart of Toronto Killed Instantly.—A man named Stewart, of a Metropolitan car when his horse was killed by a car on the corner of St. James and St. Patrick streets, was killed instantly. The accident happened on Sunday afternoon. The car was driven by a man named Stewart, who was killed instantly. The horse was killed by the car.

Thin Falls in Dakota. Grand Forks, N.D., March 26.—Rain has fallen in many parts of the state during the last day or so, crops being visited by slight snow. The forecast for the next few days is for a good crop.

Grand Forks, N.D., March 26.—Rain has fallen in many parts of the state during the last day or so, crops being visited by slight snow. The forecast for the next few days is for a good crop.

FEELING BETTER

It is satisfactory to note that Sir William Van Horne is recovering from the "sick and ashamed" condition into which the announcement of his alleged secret agreement with him. Such is the pleasing intimation conveyed by a circular issued that Sir William is to be knighted by the shareholders of the Laurentine Company, of which Sir William is president, a company engaged in the manufacture of new paper. The occasion of the circular seems to be the Laurentine's decision to invest itself in something like the position of the C.P.R. regarding its land sale fund. The fund, which would pay abnormally large sums of money to go into the Laurentine's business. Wherefore a new issue of stock is to be made and the shareholders of the company "taken care of" in the usual way—which means no doubt that they will be given the same stock at par. As the stock now sells in the open market at more than \$200 for a \$100 share, this distribution of new stock will amount to something. It is explained that the new stock is issued to allow the Laurentine to expand their business. That the basis on which the dividends of the company are paid will also be enlarged is purely an incidental. The real purpose is to prepare to do business on a bigger scale. That is a curious undertaking for a company whose president is "sick and ashamed" of the country and its people. Sir William as a paper-maker has none of the sick and ashamed feeling. His company has been selling paper in the United States in competition with a tariff built trust, to whom he has to pay \$5.50 per ton on it. As Sir William wants to enlarge the business it is clear that he expects to sell more paper, either in Canada or across the line. The Laurentine's business is in line with a deep conviction that reciprocity will drive Canada to the low woe, or with the view that the U.S. paper-maker will be able to chase the Canadian competitor out of the U.S. market by the reciprocity agreement.

THE "NORTH AND SOUTH" LINES

Replying to a question a few days ago the Minister of Railways informed Parliament that West of Port Arthur, Canadian railways cross the international border at eight points and United States railways at fifteen points. East of Port Arthur, Canadian railways cross the border at twenty-three points and United States railways at one point. Altogether, Canadian roads penetrate the United States at thirty-one points, while United States railways enter the Dominion at sixteen points. It is the development of business on north and south lines, the Canadian railways stand to gain, for they will every one get by a United States road. The other significant fact is that in Eastern Canada where there is no long haul to the Atlantic seaboard, the Canadian companies are entirely prepared to build railways to carry the products of Canadian farms south and the products of United States factories north. But in Western Canada, they demand that all the farmer produce shall be hauled eastward over the long haul of the Dominion, and try to compel this artificial direction by refusing to build a railway to the Atlantic seaboard or to the eastern provinces and thence south. It is probable that if the reciprocity agreement were to apply only between the eastern provinces and the Republic the railways would be stretching for it as a most proper, wise and altogether proper arrangement. It is the traffic of the West that are worrying about, and to keep the traffic of the West that they are making war on the struggle to allow the traffic to flow south of the boundary when the price there is more satisfactory. It is of course the understood and undisputed right of the railways to promote their own interests, even by the parade of a pretended neutrality. If they see fit to adopt that mask. But it is equally the business of the farmer to look after his own interests, and to consider the interests of his sympathetic consideration which are

EARLIER EFFORT
TO KILL LENNOX

ILL-FATED SETTLER RANCHER
 WAS PREVIOUSLY GIVEN
 STRUCCINUM IN FOOD.

Special to Bulletin. The murder of William Lennox on Thursday night is still enshrouded in mystery and the police are endeavoring to solve the mystery by the tragedy which is practically the sole topic of conversation. There were a number of startling developments today and the R.N.W.M.P. have been more active in their efforts than at any time since the shooting. This morning his neighbor, C. Carter, who was arrested on Friday evening, and another man in custody today, were not given details of the case. It is said that some weeks ago the murdered man was given a quantity of struccinum in his food. It is also stated that the latter was seen near Lennox's house on the day of the shooting. It is expected that there will be a number of other arrests within the next day or two. A darning needle to take the life of the ill-fated rancher a few days ago has just come to light as a result of the investigation into the murder. A darning needle was found in the house of the murdered man and his help were away and put struccinum in the house that was kept in the cupboard for use as a darning needle. Some of the money was afterwards sent by Lennox and his hired man and both were very ill, the latter having taken a fatal effect. It did not seem the case of the poison, however, for it to have a fatal effect. The darning needle was found in the house of the murdered man and his help were away and put struccinum in the house that was kept in the cupboard for use as a darning needle. Some of the money was afterwards sent by Lennox and his hired man and both were very ill, the latter having taken a fatal effect. It did not seem the case of the poison, however, for it to have a fatal effect

The Millinery Openings

New have the millinery openings been so numerous in this year. Considering one's wardrobe for the coming season and the fact of the extraordinary price which is a possibility of Lenten distraction—opportunities not met by the ladies of Edmonton.

And such a range to choose from! Hats, dresses, coming so far over the head as to enable the wearer to hear her own echo; dashing helmets, dainty flower toques and smartly tailored chaprains, are all equally popular.

The Acme opening last week was marvelous, while allowing one's thoughts to wander into the distracting world of fashion, glancing at the stunning hats and lovely toques, a vivid imagination was not at all reluctant to fancy one's self shopping in the fashionable quarter of New York. Certainly the management of this house spared no pains to make the opening as attractive as possible and the scene created their efforts. Here Billy Burke and Eva Tannary, though not present in the flesh, but in waxen mold (special introductions for the Acme opening) stood in all their glory wearing New York creations, manufactured particularly for this event, one of these models in question is an exquisite pink liberty satin with steel grey French chiffon over drapes and undersides of opal grey satin. The short, straight, and the decolleté which met eye forms, are outlined in grey marabout fur. The last ensemble differs here and there with time.

Another elegant creation is white liberty satin with overdrapes of black French chiffon—with deep undersides of white liberty satin, edged with three rows of black marabout. The opening is very attractive, the chiffon over a transparency of black marabout—the sleeves are kimono. The lovely toques sparkle with time here and there. This model in the window is available in Edmonton than in New York, owing to the fact that this establishment to satisfy their patrons.

With his imposing toques Billy Burke wears a smart creation of fine white mohair hat with crown faced with black plume velvet, with crown the same, black Chantilly lace, embroidered with white dots around it, and upturned drape like wings, an antique ornament and cluster of flowers, moss roses and violets under the chin, are the finishing touches.

Other charming dresses there are a pretty white Marquise striped with black, Mikko cut with pointed collar, yoke extending over the shoulders, made of Madras—black and white new black silk strips also bands of Madras around each sleeve.

A very smart dress is of navy blue and white striped silk, the skirt high in the back. The bodice is black, edged with black and white stripes, the cuffs finished in navy blue silk are deeper bordered with navy blue to match the yoke.

A fascinating frock of white marquisette with accordion plaited skirt with deep border in one of the novel designs dotted with black. The bodice and sleeves are of the same material as the bodice, while a white yoke extending to the waist and in points over the sleeves is of white marquisette.

Some of the most striking hats noted were a dashing helmet with extremely high Tuscan straw crown, with tiny red veil of fine black mohair.

Another delight is a smart yoke dress in yellow, faced with white, covered with quantities of foliage and wreaths of burnt orange flowers—quite the latest touch. The simplicity of this model is decidedly its beauty.

A stunning New York model is a champagne-colored pressed feather, faced with black plume velvet, black plume shape, trimmed with maiden hair fern and cream lace roses (French note feature).

Several lovely models in white straw as well as in the real pascas are in evidence. Lovely chip straw in all shades, pineapple being popular here, are everywhere seen. The lovely French flowers of lace and silk, in the pastel as well as other colors combined, are beautiful. The childlike whimsy in this effect, various shades of white and pink, the childlike whimsy in this effect, various shades of white and pink, the childlike whimsy in this effect, various shades of white and pink.

Miss Morrow's millinery parlors are a corner of flowers. Gardiner's, Harpeth's, and others, including roses, large and small daisies, hydrangeas, anemones, and other flowers, are everywhere seen. The lovely French flowers of lace and silk, in the pastel as well as other colors combined, are beautiful. The childlike whimsy in this effect, various shades of white and pink, the childlike whimsy in this effect, various shades of white and pink.

The childlike whimsy in this effect, various shades of white and pink, the childlike whimsy in this effect, various shades of white and pink.

A charming model is a large pale blue mushroom with beaded net crown, caught at the side with huge bow of Paradise.

A style peculiar to this season, which shows great individuality, is a French model—a white crisp tulle, black crepe feathers at the side. Another straw with white breast wound around the crown and wing.

A sweetly pretty hat is a large shape of white Irish lace with a gold band around the crown as well as a wreath of cream roses.

A very striking model is a huge canvas one, with marine blue velvet draped over the crown and lovely roses over them, the hat has black satin facing.

A remarkably stylish hat and one that cannot fail to catch the fashionable woman's eye is of burnt, fawn, with insertion and trim of beaded chiffon, trimmed with tiny rose buds, lines of the valley and forget-me-nots—a large bow of black velvet and beaded chiffon finishing it.

The motor bonnet has become a necessity here, new modern and joyous away. If one has not her own motor, some of her friends certainly have. A comely little motor bonnet here shown is of beaded chiffon, two rows of lace and pretty roses of tiny rose buds and three triangles.

A dream of perfection here shown is a large (galashooter, cream lace, bordered with black velvet and wreath of tiny flowers interspersed with tiny roses.

At Vancouver hat are always the best of friends.

A smart hat is a new turban shape in one of the novelty lace—studied with coral beads and trimmed with the leaves velvet, a hat just of this kind is a very good style. The latest or any other trend not necessarily accepted.

Miss Minnie King has obtained a remunerative position in the Westsaskatoon post office. She assisted at the post office here during Miss Billie's absence. Her place here is filled by Miss Irene Wright.

In the Merchants' Bowling league matches the Leduc-Edmonton team defeated the C. P. Bidd & Co. team in two straight games on Monday night.

The next match of the series will be played between the staff of A. M. Anderson and the visitors of Monday night.

The death took place at Stony Plain, of Hilda, the ten-year-old daughter of Mr. and Mrs. John O'Brien. Friends of the family attended in three numbers at the funeral on Thursday afternoon to view their

sympathy with the sorrowing family. The funeral service was conducted by Rev. Mr. Jutner, and Rev. T. T. Reike, also spoke in feeling terms at the graveside. The teacher and pupils of Stony Plain school, with whom the deceased, from her kindly and playful disposition, was a general favorite, presented a floral wreath. Mr. and Mrs. Grigat have the sympathy of a large circle of friends in the untimely death of their bright little girl.

The fire brigade saw active service for the first time this year on Tuesday morning at a fire which broke out in the office of the Leduc Produce company's store. The brigade was on the ground in record time and the fire extinguished before any headway had been made. The fire was caused by an overheated stove pipe.

A meeting of the Leduc school board was held on Tuesday night, all the members being present. A bill was passed to borrow \$1,000 to meet current expenses.

D. R. Muir, of Quebec, arrived with a car load of entires' cattle to take up farming at Clearwater. His wife and family are coming to join him in April.

The sports to be held on May 24th under the auspices of the fire brigade have caught generous subscriptions are rapidly coming in and certainly from the creditable manner the brigade acquitted themselves on Tuesday they deserve every encouragement.

At the Agricultural institute meeting on Monday President Hall occupied the chair. A. M. Anderson, in place of E. C. Wells, who was unable, gave a talk on potatoes. He estimated that 75,000 bushels of potatoes were shipped from Leduc last year and before the end of the month the figure would reach 125,000 bushels.

The price varied from 15 to 20 cents a bushel. This meant about \$50,000 to the district for a product to which the farmers do not attach much importance. More care should be taken in the methods employed in marketing the potatoes.

The farmers must not mix up the big, little, good, bad and dirt in the same sack. The greatest demand is for white potatoes, nicely assorted. The dealers ought to be more careful in the shipping of potatoes in future.

One load of bad stuff would affect a whole car and finally the whole market for potatoes from the district. If properly graded and marketed the public would soon be demanding Alberta potatoes as they now are the British Columbia product.

In his address on dairy farming, W. W. Freyer, Edmonton, said he was contemplating selling his farm in Wisconsin with a view to take up dairy farming in Alberta. The prospects here were excellent with such a number of lumber and mining farms springing up which will have to depend on the neighboring farmers for their supply of milk and butter.

The men going in for dairy farming should keep a good class of cows. He need the production of strictly high class cream.

The respective addresses were followed by a long discussion and judging from the numbers attending such meetings of late the local speakers

prove more of an attraction than the speakers sent from the department of agriculture, Leduc, Mar. 24.

EASTBURG.

Bulletin News Service.

J. McGregor has decided to stay by his hometown.

Chris Pedersen, R. J. McGuinness and Bert Tracy have returned to their hometowns after working away all winter.

Robert McFate has purchased the big loan of oven formerly owned by the late Herbert Hoynes.

Paul Gustin attended the auction sale of horses at St. Albert last week. J. R. Dodson had a narrow escape from fire Saturday. The roof caught fire from the fire.

Rev. Remour holds services every Sunday at 11 o'clock a.m. at the school house. Everyone cordially invited. Sunday school at 12 a.m.

Mrs. Churchill, of Head Bluff, was in the vicinity Saturday in the interests of the school. She comes well recommended.

Henry Kipp and his big bay mare to J. Dodson, Friday.

Harris Allen and wife are on their way home from Nova Scotia. Mrs. G. Hoogers is confined to her bed with rheumatism.

Henry Kipp is looking for a good team of horses.

EDISON.

Bulletin News Service.

Mr. Legasse will finish sewing in about one week. He reports a good run this winter. Mr. Legasse will move his mill some twelve miles north of Edison and will likely turn out a fine bunch of lumber next winter.

Tranger Halvén and Berry have taken out nearly twenty-five loads of ice from Knox's lake.

Miss Nellie Pollard is on the sick list. Dr. Amott from Leduc was out twice.

A very good time was spent at the home of Mrs. Grangers last Friday evening and dancing was kept up until an early hour.

John Gustafson had a bad accident happen he saw mill last week. His engine house caught fire and damaged his engine to about three hundred dollars.

Omce Houle is making good progress in the Pembina district threshing and sowing wheat. He has a few jobs around Edison.

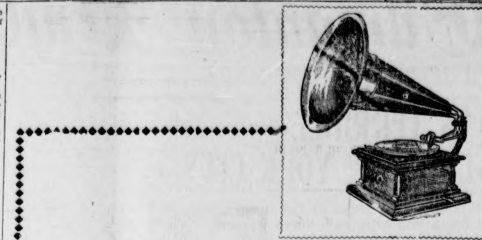

Porter Bros. have been busy crushing grain this last while back. The M.V.A. of Edison have a bunch of lumber saved at Mr. Legasse's mill. Mr. Wilson has a fine bunch of logs at the mill.

ELEY.

Bulletin News Service.

Miss Clara Mosley returned to her duties in the store yesterday morning.

Mr. Thomas Thirak, of Banff, drove to Eley, Wednesday, and returned today, accompanied by his daughter, Miss Olive, and her friend, Miss Evelyn Malt.

Gramaphones

The World's Most Wonderful Music Reproducers

A WORD

ABOUT THEM—

Have you ever taken into serious consideration the value of a Gramophone in your home? It supplies music of all kinds—Orchestras, Violin Solos, Piano Solos, Elocution and Vocal Solos by some of the most talented artists in the world—which you could never listen to at home with out its aid.

They are handy to remove from one room to the other and are always in condition for perfect music.

Now, our stock includes a fine array of these attractive musical instruments—when may we show them to you?

And Our RECORDS

Are profus in numbers, quality and style. We specialize in the NEW RED SEAL Records and absolutely guarantee them to be the best.

Amongst the favourites we would mention GERALDINE FARRER, HERBERT WITHERSPON, JOHANNA GADSKI, The Diva M. LBA, scenes by CARUSO and HOMER, also a new Sicilian with Harp accompaniment by CARUSO.

There are many other delightful numbers in our repertoire, which is the most complete in Edmonton, but we cannot give them all. If you will call in at your convenience we will be delighted to give you a rendering of anything you desire.

ASQUITH WILL APPLY CLOSURE

DRAMATIC MEASURE TO CUT OFF
TOBY FISHBURNING IN
COMMONS.

London, March 26.—(By T. P. O'Connor)—The tide of our Anglo-American entente is flowing steadily and unintercepted, but not in a direct current. The agitation raised this week from the politician to the clergyman. A certain pause is suggested by some observers, especially by Sir Edward Grey. This, doubtless, is inspired by the idea that it is wise to await a corresponding return from America to the wild whimsy of the idea by the English, public opinion, but the feeling undoubtedly still is strong and unanimous and no voice dares to raise itself against it. Home affairs still are in the "hull" caused by the intervention of voting superintendents. This pause is accountable for some of the rumors circulated this week that the Tories will throw out their speculations of a possible compromise, and still engage in weaving new schemes for meeting the attack on the House of Lords by projects of self reform.

Lord Shelbourne, lately governor-

general of the Transvaal, started his stamping campaign with a series of four or five trumps, and in three speeches in different parts of the country he brought forward a brand new scheme of reform.

The Tory journals announced tentatively this new scheme and prophesied that it would knock the bottom out of the Liberal programme, and the veto bill, but opposite results followed and the new scheme is found to be merely the same old tinkering scheme already proposed.

Lord Roscher, and Lord Lans-

downe, like the new scheme to re-

late carefully the hereditary principle

and also to secure domination in the

new second chamber by the Tory ma-

jority.

Laughed Out of Court.

The scheme, therefore, already has

been laughed out of court and the

situation remains the same, only more

solid that is to say, "conviction of the

Liberals is deeper; that self reform

by the Tories is quite as hope-

less now as before the last election."

This leads to a greater and even

more determination to push on the

veto bill without delay and with out

a compromise. Two or three well-

known Liberals are reported to have

announced the labor leaders with a

scheme of compromise, but all such

efforts are dismissed with contempt

and disaster.

Indeed, so strong is the feeling of

the radicals that the battle must be

to the bitter end, that they hold a

meeting to condemn Premier As-

quith because he seemed to yield

more time to the obstructive Tory

majority than was safe.

Another rumor, started by the To-

ries with the view of suggesting that

Asquith was weakening and that a

compromise bill was possible, was

dismissed as a mere rumor. It was

stated that parliament would separate for

a full month at expiration time.

At once the Tory newspapers an-

nounced that this long vacation was

given in order to hold a new confer-

ence and new proposals of com-

promise. Asquith replied stoutly,

saying that any such scheme was

absolutely out of the question. He then

announced that the "vacation" was

for four days and gave notice that next

Monday, in order to meet the ob-

struction of the veto bill, he would

propose the most drastic form of com-

promise. Doubtless the Tories next Monday

when the closure is proposed will

raise a big howl and perhaps they

will force an all night sitting, but the

closure will now be thoroughly in

the hands of the Tories. The bill is

clear for the bill and on Monday,

April 3rd, we shall be once more in

the full of the fury of the veto fight.

The only weakness of the ministry

at the present moment is the number

of its members on the sick list. This

includes another shuffling of the

ministers. Secretary Haldane's

removal to the House of Peers

was the first step in this reconstruc-

tion, but others are expected.

Lloyd George still is absent, the

injury in his throat proving ob-

stinate and the bad weather of the last

few days bringing back the old sym-

ptoms, but all of the reports that he

was struck down by a malignant dis-

ease are false.

His absence weakens the ministry,

especially as the debates of the last

two weeks have been mainly on his

budget but the ministry gives its way

along with the subordinate and

wherever the obstruction becomes too

palpable the closure is immediately

applied.

The situation in Ireland is quite

satisfactory. The annual subscrip-

tion for the parliamentary party has

just started with a big boom, largely

helped by clerical authorities in every

parish and Scotch town urging the

St. Patrick's Day celebrations.

One indirect, but prompt effect of

the campaign for an Anglo-American

entente is that Germany's relations

with Germany have entered into a

new and friendlier state, and even

the difficult English railway question,

which threatened their good relations

for years, approaches an amicable

settlement.

Die Labor Fight For America.

Los Angeles, March 25.—American

employers are forming a fund of \$200,

000 to perfect themselves against

strikes, and to support the Free Labor

Association. This action signifies

that the employers are consolidating

their forces to fight the aggression of

the trade unions. The position is one

of menace for the industrial interests

in America.

Lloyd George still is absent, the

CHAPTER OF SEA AND RAILWAY DISASTERS

"DIE FLYER" Goes Through Trestle
on East Coast and Twenty-nine
Passengers Killed—Two Steamers
Foundered After Collision—Steamer
Burned at Sea.

Ocala, G. A., March 26. — "The
Dixie Flyer" on the Atlantic coast
railroad went through trestle into the
Alphie river near here this morning
killing perhaps 25 passengers. Flyer
coaches were derailed. The coaches
are ten feet under water. Ten bodies
have been recovered, but many others
are believed to have been beneath
debris and water. Several trains are
carrying surgeons and physicians have
been rushed to the scene from near-
by towns.

Two Steamers Foundered.

London, March 26.—British steamer
Irishbrook and the French steamer
Villa de Bona, collided off Beach-
head last night and both foundered.
The crews totalling forty-nine per-
sons had only time enough to take
the small boats. They were picked
up this morning by a tug and landed
at New Haven. Neither freighters
carried passengers.

Steamer Burning at Sea.

Bearak, California, March 25.—The
government wireless station at Talis
 bluff reported that a steamer is burn-

ing about four miles off that place.
The steamer Argie and Rose City
have left here to give assistance. A
diesel tug named "The Water"
through which a first place can be
seen of shore. The fire-raging crew
from here has put to sea in a power
boat in an effort to reach the burn-
ing vessel. The tug relief is also
trying to go out but a tremendous
sea is tumbling over the bar and it
is doubtful whether she can cross it.

Thirteen the Death Toll.

Vancouver, March 26.—Thirteen
was the death toll in the foundering
of the steamer Shell off Sooke har-
bour in straits Juan de Fuca on Fri-
day afternoon. Among the known
dead are Rev. W. A. Hargreaves and
wife, Presbyterian missionaries at Sooke,
who had been in Victoria attending
their sons' wedding. J. J. Henderson,
aged 82, of Cody, Wyoming, the sur-
veyor for the Canadian Northern,
Captain James and engineer, J. H.
Young. The others were Italian and
Greek railway laborers. There were
23 people aboard including four of a
crew when the steamer left Victoria.
Of these eighteen passengers refused
to proceed beyond William Head, be-
cause of rough weather and darkness.
They returned to Victoria by road.
No survivors have been found yet.

Commissioner Perry Hounded.

Ottawa, March 25.—Commissioner
Perry of the North-West Mounted
Police, has been gazetted an hono-
rary A. D. C. to his Excellency Earl
Grey.

A FATAL AVALANCHE. One Saved His Life by Moving With Slide, But Another Was Killed.

Kaslo, B.C., Mar. 26.—While cross-
ing from the Flat to the Granite
King mine, Patrick Johnston and G.
Hannay were caught in an avalanche
of snow, the former suffering death,
Hannay saved his life by throwing
himself backward on the slide and
moving downward with it. On reach-
ing the bottom he found himself bur-
ied for hours. The miners from the
Flat heard the call and hurried to
the rescue.

Forty minutes of work were re-
quired to extricate Johnston, but life
was extinct. Hannay and the Flat
crew improvised a sled and brought
the body here. Johnston had been
chief electrician in the Harris elec-
tric plant at Kaslo several years and
was a leasee of the Granite King.

Lethbridge, Mar. 25.—Lethbridge
board of trade will engage a public-
ity commissioner who will devote his
attention to getting wholesale houses
and industries.

Premier Sifton has promised to at-
tend the annual banquet on April 4.
"Caroline" has agreed to give \$25,000
for a public library. The city coun-
cil will submit a by-law for the pur-
chase of a site.

L. J. Lambert, who underwent a suc-
cessful operation at the General hospital
at Victoria, is understood to be making
favourable progress towards recovery.

"Queen Mary Park"

LOTS ON SALE TO-DAY

"Every Man Ought to Have One"

Compare Our Prices With Those of Adjoining Properties

"The Queen of Sub-divisions"

Strategically Correct

"There is no Royal Road to Learning," but there is a Royal Road to successful Real Estate operating, if you act now.

Buy lots in Queen Mary Park, and every dollar of profit will prove a pleasing souvenir of the Coronation year.

Every Mary, yes, every Mary's husband, brother or other interested party ought to have one. Take the map and study the situation for yourself. If you do not fully realize the importance of this opportunity, come in and we will prove it to you down to the last fraction.

The proof lies open to all who have the "key."

The Royal Road

It is called strategy—that quality which enables a successful general to place his forces so as to win his battles. Successful Real Estate operations are governed by the same quality.

Queen Mary Park is the "key" to the battle—it is the one point at which you should post a strong force of your dollars in order to reap the fruits of victory.

The proximity of the Grand Trunk Shops ensures an imperative demand for lots in Queen Mary Park. Be ready to supply this demand. It is the man who is just ahead who makes the money in Real Estate, not the man who waits till after the event.
